## PROFESSIONAL DEVELOPMENT

NT101 Online Course

### OVERVIEW

NT101 is a 20-hour online professional development course for educators. The format is designed for educators who are dedicated to understanding and incorporating netTrekker d.i.'s key features and functions into the context of teaching and learning. Participants will be guided to gain experience and build expertise using a variety of 21st Century learning resources, including Moodle, interactive tutorials, educational blogs, podcasts, electronic surveys and other web tools. The course provides a collaborative online learning community promoting opportunities for interaction among participants and instructors as they explore netTrekker d.i. content and functionality.

### LEARN AND CREATE

Participants will build skill development of netTrekker d.i. while creating lesson plans, units of study, and supplementary instructional materials that will serve as standards-based curriculum. Instructors will provide support to each course participant in the areas of standards-based instructional content, differentiated instruction, and the integration of online resources into teaching and learning. Online discussion forums serve as a support group for participants and provide an arena for sharing best practices in technology integration. Participants will complete assigned readings, view online tutorials, and apply skills learned to create artifacts for direct application in the classroom.

### EXPLORE

As participants learn the features of netTrekker d.i., work through the activities, and gain technical skills, they will see how utilizing this technology tool will enhance both their productivity and their teaching methods. Through the following content modules, participants will save time creating, reviewing, publishing, and sharing instructional materials:

- Searching in netTrekker d.i.
- Differentiated Instruction
- My Portfolio Basics
- Advanced My Portfolio
- English Language Learners
- 21st Century Learning

### ACHIEVE

The course duration is 7 weeks, including a partial week for orientation. Participants are required to spend an average of 3 hours per week reading, completing course assignments, and participating in discussion forums. Upon completion of all course requirements, participants will receive a certificate for 20 contact hours.

### PREREQUISITES

- Participants must have a current netTrekker d.i. subscription or a 7-week netTrekker d.i. free trial.
- Participants are expected to have reliable Internet access and be proficient with using e-mail, browsing the Internet, and file management.
